

**EGL Asia Diamond Laboratory Debuts in Vietnam and Shanghai,  
offering high-speed turnaround for diamond certification**

*Hong Kong, SAR, China, -- November 20:-* EGL Asia, the only EGL diamond laboratory operating independently in Asia, recently presented its services for the first time at the 17th Vietnam International Jewelry Fair and will be exhibiting at the China International Gold, Jewellery & Gem Fair in Shanghai later this month. Having opened its doors in June in Hong Kong, the company boasts a brand new state-of-the-art laboratory featuring the most modern equipment in the diamond industry. Another exceptional service it offers is high-speed response times. The company provides certificates within 24-48 hours all over Asia and the VIP service boasts a 2 hour delivery turnaround time in Hong Kong.

Says Yossi Kuzi, Managing Director and Founder of EGL Asia, “We are operating in the heart of the fastest-expanding region for diamond and jewellery sales globally. With the Chinese economy growing rapidly and creating huge demand for diamonds and jewellery, there is an enormous demand for high-level grading services with a speedy turnaround. In addition, China's impact is felt in the rest of Southeast Asia, and that means EGL Asia is ideally placed to provide its high-quality services to the other major markets, including Japan, Taiwan, Singapore, Thailand, Indonesia, Malaysia, Vietnam and the Philippines.”

The company provides full and mini certification, consultation, laser engraving and diamond sealing services. In addition the lab is operated by a highly experienced team of graders who are holders of grading diplomas from the largest and best-known internationally gemological institutes. As EGL Asia is an independent gem lab and grading services are undertaken in-house, it retains complete control over the grading process. Customers are assured of the highest levels of accuracy and complete reliability due to a specially created administrative structure which supplies trustworthy results.

[EGL Asia Limited](#) will be exhibiting in Hall 2, booth 2D28 at CMP Asia's *China International Gold, Jewellery & Gem Fair* from November 27-30. China is the world's third biggest consumer of luxury goods with Shanghai ranking as the number one among Chinese cities in terms of sales volume. Jewelry has been placed third after housing and automobiles in the luxury market.
